Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

As of 04/02/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information visit: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Travel-Advisory.aspx>

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Potential Critical Fire Weather Conditions Sunday afternoon into Tuesday due to gusty winds and low humidity.
 - Gusty northerly winds are expected to develop over the Sacramento and northern San Joaquin Valleys and portions of the Delta and lower foothills Sunday afternoon.
 - Afternoon humidity levels expected to drop into the teens and even single digits locally.
 - Poor humidity recoveries are expected overnight.
 - These factors along with unseasonably dry fuels will bring the potential for critical fire weather mid-day Sunday into Tuesday afternoon.
 - The strongest winds are expected along the west side of the Sacramento Valley.

SOUTHERN CALIFORNIA

- Nothing significant to report.

WEATHER KEY POINTS

05/02/21 - 05/08/21

Sunday-Tuesday

- Increasingly gusty winds and very dry conditions will likely bring critical fire weather conditions to much of the Sacramento and northern San Joaquin Valleys Sunday through Tuesday
 - Any new fires could spread quickly with the expected weather conditions
- While not as widespread as the Central Valley, gusty winds and dry conditions will lead to locally elevated fire weather concerns across the southern California mountains, foothills, and deserts, as well as portions of Coastal Region, through the weekend and into early next week
- A few light rain showers are possible across primarily the mountains of northern and central California on Sunday, but no significant impacts are expected

Wednesday-Saturday

- Another warming trend expected for much of the state Wednesday and Thursday, with additional heat impacts expected
- Dry conditions also continue, with only light showers near the Oregon border expected through Friday
- Winds could increase across the state again late in the week
